PROFESSIONAL SUMMARY

Recent Bachelor of Information Technology graduate specializing in Business Information Systems, with experience in IT operations, business analysis, software testing, data reporting, and project coordination. Skilled in gathering requirements, documenting processes, performing UAT and QA testing, and collaborating with technical and non-technical stakeholders. Proficient in Jira, Confluence, SQL, Salesforce, Excel, and Figma, with strong communication, problem-solving, and organizational skills. Seeking an entry-level opportunity in IT support, business systems, technology operations, application support, or business analysis.

TECHNICAL SKILLS

Business & CRM: Salesforce CRM, Customer Relationship Management (CRM), Business Development, Stakeholder Engagement, Requirements Gathering

Tools: Jira, Confluence, Figma, Microsoft Excel, Google Sheets

Data & Reporting: SQL, Data Analysis, Reporting, QA Testing, Data Integrity

Professional Skills: Cross-functional Collaboration, Presentation Skills, Communication, Relationship Building

PROFESSIONAL EXPERIENCE

Operations Intern - Haycarb USA Jun 2025 - Jul 2025 | Pittsburgh, United States

- Collaborated with cross-functional teams to improve operational reporting and support business decision-making.
- Reduced process documentation gaps by coordinating scope definition and requirement capture across production and logistics teams, translating operational pain points into structured improvement recommendations
- Supported project coordination activities by tracking deliverables and timelines across cross-functional teams, ensuring data consistency across reporting cycles

Junior Data Analyst (AI Product QA & Validation) - Marketrix AI | San Francisco, CA (Remote) Jan 2024 - Feb 2024

- Supported testing and validation of **Marketrix AI**, an AI-powered platform for autonomous software testing and user simulation, by executing functional and user acceptance testing (UAT).
 - Collaborated with product and engineering teams to document defects, validate fixes, and improve software quality throughout the development lifecycle.
 - Produced QA documentation, test cases, and testing reports to support product releases and continuous improvement.
-

Junior Consultant - National Democratic Institute Feb 2023 - Jun 2023 | Colombo, Sri Lanka

- Improved project delivery timeliness by coordinating administrative workflows and maintaining structured documentation across multi-team programmes, supporting accurate financial reporting, fund tracking, and audit-ready record management within a grant-funded programme environment.
- Reduced reporting errors by implementing consistent internal documentation standards, ensuring audit-ready records across program delivery cycles

PROJECT EXPERIENCE

BrewHub Inventory and Order Management System | Monash University

- Delivered a fully documented system design by leading requirements gathering, producing UML diagrams, ERDs and user stories for an inventory and order management system within an Agile team
- Accelerated stakeholder alignment by designing Figma UI prototypes, reducing ambiguity between business requirements and technical implementation

Monash Innovation Guarantee Chatbot Project | OurVoice Australia

- Delivered an AI-powered chatbot prototype for civic engagement by conducting stakeholder interviews, user journey mapping and cross-functional collaboration across a university-industry partnership
- Strengthened solution quality by presenting final prototype to an industry partner, incorporating feedback through iterative refinement cycles

Courier Tracking and Operations System (Industry Project - Impeccable Couriers) | Monash University

- Reduced operational ambiguity in logistics tracking by gathering and documenting business requirements and producing UML diagrams, process flows and functional specifications for a courier tracking system
- Validated system design by presenting the courier tracking solution to an industry expo panel, incorporating guest feedback to refine functional specifications and improve solution viability

EDUCATION

Bachelor of Information Technology (Business Information Systems)

Monash University Australia | July 2023 - June 2026

WAM: 70.1/100 (Distinction)

CIE A-Levels

Psychology, Mathematics, Information Technology

CERTIFICATIONS

Salesforce Certified Platform Foundations (2025)

Salesforce Platform Administrator Certification | In Progress - Expected to complete in Aug 2026
